Subject: RE: Question concerning Deer Park emergency response PFAS samples
Date: Friday, March 29, 2019 12:01:00 PM

I just checked and the samples that arrived at the CRL from Monday (3/25) to today (Friday, 3/29) have a due date for final, reviewed data of 5/13/19.

Subject: Question concerning Deer Park emergency response PFAS samples

Hello Eric,

Sylvia Griffin, our CRL Data Coordinator, informed me that you were seeking information on when final, reviewed data would be available for these samples. The turn-around-time set for this project is 45 days (that's from receipt by the CRL until reporting of the final data).

Please let me know if you have any other questions today, but please limit communication to email as I'm extremely sick and have completely lost my voice (so I can't talk on the phone). If it can wait until Monday, Larry Zintek, George Schupp, and Carolyn Persoon should all be back in the office.
